

PRINCE EDRIAN P. CASEM

Full-Stack Web Developer | IT Student | Content Creator

📍 Flores, Umingan, Pangasinan | 📞 +63 967 390 7708 | ✉️ princeedriancasem@gmail.com | 🐙 github.com/prince793

OBJECTIVE

Motivated 3rd-year BSIT student with hands-on experience building full-stack web applications using PHP and Laravel. Seeking an internship opportunity to apply and grow my skills in web development while contributing to impactful software projects.

TECHNICAL SKILLS

Languages & Frameworks

- PHP, Laravel, JavaScript, HTML, CSS, C#

Tools & Platforms

- MySQL, Git, GitHub, Unity Engine, Canva, VS Code, XAMPP

Other Skills

- Content planning, video editing (CapCut), caption writing, social media management

PROJECTS

BizBook — Business Website & Appointment System 2026

Laravel 12 · PHP · MySQL · Blade Templates | github.com/prince793/bizbook

- Built a full-stack business website with an online appointment booking system
- Includes admin dashboard with login, booking management, and service management
- Features form validation, status updates (pending/confirmed/cancelled), and seeded sample data

ShopWave — E-Commerce Store 2026

Laravel 12 · PHP · MySQL · Session-based Cart | github.com/prince793/shopwave

- Developed a complete e-commerce platform with product listing, shopping cart, and checkout
- Admin panel for managing products, categories, and orders with revenue tracking
- Supports COD and GCash payment options with order status management

GradeTrack — Student Grade Management System 2026

Laravel 12 · PHP · MySQL · Dual Auth | github.com/prince793/gradetrack

- Built a grade management system with separate admin and student portals
- Auto-computes final grades using Midterm (40%) + Finals (60%) formula
- Includes student reports, GPA tracking, subject management, and grade records

SignSync — IoT Sign Language to Speech Translator 2026 – Present

IoT · Embedded Systems · PHP · JavaScript | Team Project (In Progress)

- Collaborating with a team to develop an IoT device that converts sign language gestures into spoken speech in real time
- Aimed at bridging communication for the hearing-impaired community — currently in active development

EDUCATION

Bachelor of Science in Information Technology *Sep 2023 – Aug 2026 (Expected)*

University of Eastern Pangasinan | Dagupan, Ilocos Region, Philippines

- Currently in 3rd year — specializing in web development and IoT systems
- Active in technology projects covering full-stack development and embedded systems

ADDITIONAL INFORMATION

Languages

- Filipino (Native), English (Professional Working Proficiency)

GitHub

- github.com/prince793 — 3 full-stack Laravel projects

Looking For

- Internship in web development, IT support, or digital content — remote or on-site in the Philippines
